North star

A training ground for builders.

Every E-Cell event is an exercise. Each one builds entrepreneurial muscle and changes how students think.

🚀 **Our goal: make SST the place India's biggest startups trace back to.**

Harsh Paliwal · Siddhant Sawant · R.S. Tushar · Kanishka Mangal · Siddhant Chole

🌱 **18**
startups into the SIL Fellowship

💼 **200+**
founders and investors on campus in 1 day (SAIS 26)

📈 **80 → 300+**
average participation per event, last year → this year

R Respect · **I** Integrity · **C** Curiosity · **E** Excellence

Everyone leads: each initiative has one owner, and every owner has a voice.

What E-Cell builds: five skills, each trained by a real event.

Defining and solving abstract problems	2 VC-backed hackathons, VC Mela + Campus Fund and Ascent Launchpad → Ship-it-Sprint. Students form their own hypothesis, test need and market, then build an MVP.	**297** teams in Ascent Launchpad
Negotiation	The ₹1000 Hustle 2.0. With a ₹1,000 seed, teams sourced stock and set prices. One team struck a deal with Rameshwaram Cafe.	**36 of 38** finishing teams ended above their seed
Sales	The ₹1000 Hustle 2.0. Teams sold in hostels, housing societies, Church Street and to tourists.	**₹5,30,806** revenue · **₹2,38,973** profit
Startup fundamentals	Masterclass week before SAIS 26: 2 mentorship sessions with VCs and founders, then a live pitch to investors.	**15** startups pitched live at SAIS 26
Shipping fast	The ₹1000 Hustle 2.0 gave teams 8 days to go from a ₹1,000 seed to a running business.	**37 of 38** Hustle teams selling by Day 5

The scale E-Cell pulled, and what participants said.

The scale

100+ **institutions sent teams**
297 teams · Ascent Launchpad, May 2026

200+ **founders, investors and industry leaders**
On campus in 1 day · SAIS 26

250 **first-years ran businesses**
Hustle 2.0 · 96% of 50 teams through orientation · 76% stayed all 8 days

In their words

"This was the first time I ever pitched in front of real founders and investors. I got to learn many things, including how to actually find solutions by identifying real problems and building solutions around them, how to communicate clearly, and how to think about a business as seriously as the technology."

ANSH, first-year student who pitched at SAIS 26 (3rd position)

"What I like most is that the club goes beyond just organizing events and encourages students to explore ideas, take risks, and actually build something of their own."

Vaibhav Singh, Co-Founder, NeuroNova

"The enthusiasm, curiosity, and active participation of 250+ students made the four-hour session truly engaging. A special appreciation to the E-Cell team for their excellent coordination, seamless execution, and efforts in making the experience memorable."

Ajay Rungta, Angel Investor, SAIS 26 masterclass speaker

Builders who shipped: startups that came through E-Cell are getting real results.

orchy

✅ Got into **Razorpay Rise**

NeuroNova

✅ Got into **NVIDIA startup program**

Both came through E-Cell events into the SIL Fellowship.

18

startups into the SIL Fellowship, all through E-Cell

12	directly through E-Cell, outside events
3	from VC Mela + Campus Fund
2	from Masterclass + SAIS 26
1	from Ship-it-Sprint

Where SST's builders stand, and what comes next.

✅ **Already delivered:** Speciale Invest, Atomic Capital, SucSEED Ventures and Picxele on campus, and teams from 100+ institutions.

Planned for Jan-Feb 2027, inter-college

🔗 E-Week

Run in collaboration with multiple colleges. In talks with **IIITB** **MESA** **RVCE** **IIM B**

🎓 Dec 2026
Wadhwani Foundation bootcamp (First new gen college to do so)

🗓️ Dec 2026
E-Cell cohort: monthly founder sessions (shaping the builder)

🏆 Yugaantar
Dragon's Den and Tech Talk

Our goal: make SST the place India's biggest startups trace back to.

Nurture young founders, and help them build companies that create value for the world.
